SUMMARY

Web Developer with a strong passion for detail and clean architecture, specializing in building and maintaining modern, high-performance, and dynamic web applications. Proficient in HTML5, CSS3, and JavaScript, with a focus on crafting responsive, user-centric interfaces. Strong proficiency in PHP, SQL, and the Laravel framework, building secure, scalable, and maintainable back-end solutions following Object-Oriented Programming (OOP) and Clean Code principles. Built 15+ practical projects demonstrating expertise in Laravel, PHP, MySQL, REST APIs, JavaScript, AI integration, WordPress, and scalable web application development. Passionate about performance optimization, continuous learning, and delivering high-quality software solutions.

WORK EXPERIENCE

1 - Web Developer | Marketing & VR Company - (1 Year 6 Months)

- Developed 5+ custom websites based on client requirements using HTML, CSS, JavaScript, and WordPress.
- Created interactive UI components to improve user experience and engagement.
- Integrated augmented reality features by creating interactive elements that enhance user engagement and leverage AR technology.

2 - Web Developer | Software Company - (1 Year 3 Months)

- Designed and optimized MySQL databases to efficiently manage dynamic website content.
- Built and integrated RESTful APIs to support front-end functionality and third-party services.
- Developed and maintained high-performing websites using PHP and modern development tools.
- Enhanced and maintained an e-commerce platform by implementing new features and system updates.

PROFESSIONAL PROJECTS

- Developed 15+ web applications using Laravel, PHP, MySQL, JavaScript, and REST APIs, covering e-commerce, dashboards, AI, CMS, and business solutions.
- Built and maintained scalable e-commerce platforms with secure authentication, Role-Based Access Control (RBAC), shopping cart, product management, order management, and complete CRUD operations.
- Designed and developed admin dashboards for content, user, product, and role management with optimized database architecture and responsive interfaces.
- Integrated third-party REST APIs to deliver real-time data, including Prayer Times, Countries Information, and Quran services.
- Developed AI-powered chatbot applications for legal and medical consultations, integrating intelligent question-answering workflows.
- Built secure real-time chat applications with authentication, instant messaging, and user management.
- Created interactive browser games using JavaScript, applying Object-Oriented Programming (OOP), DOM manipulation, Canvas API, and game logic.
- Applied MVC Architecture, Clean Code principles, Object-Oriented Programming (OOP), and database normalization to build scalable and maintainable applications.

EDUCATION

- Bachelor of Arts | University of Cairo

Diploma in Web Development (Full Stack) - Sep 2022

- **Back-End** : SQL , PHP , Laravel
- **Front-End** : HTML5 , CSS3 , JavaScript , JQuery , Angular

TECHNICAL SKILLS

- **Back-End** : PHP, Laravel, SQL, OOP | **Front-End** : HTML5 , CSS3 , JavaScript , JQuery
- **CMS**: WordPress | **APIs & Data**: REST APIs, AJAX, JSON
